

A family of four is walking along a cobblestone path next to a rustic stone wall. A man in a light blue polo shirt and black shorts walks on the left, carrying a grey bag. A woman in a blue sleeveless top walks behind a black stroller. A young girl in a red t-shirt and white skirt walks on the right, holding the stroller's handle. A baby wearing glasses and a white shirt sits in the stroller. The scene is bright and sunny.

**Viola & Grillo Postural System**

Postural Seating System for  
children from 75 to 140 cm tall  
(29,5 – 55,1 inch).

Available in 3 different sizes of the  
seats (mini, small, medium) that  
you can fix on two sizes of bases  
(for indoor or outdoor uses).

Have a look of the story of  
our young testimonial in the  
following video

## Supportive, long-lasting and breathable cover of the seat

That grants

› **Hygiene:** thanks to the excellent breathability, it reduces sweating and bacteria formation.

› **Washing:** despite the supportive cover is not removable (the upholstery is), the fabric composition allows easy sanitization and washing.

› **Quick drying.**

› **Resistance:** High resistance to abrasion. The high resistance texture maintains its performance even at high loads (ISO 12947 test).

› **Fire retardant:** according to EN 1021-1:2014 and EN 1021-2:2014.

## High performance upholstery, removable and easy to wash!

**Optimal "self supporting effect":** the padding structure, highly innovative, allows optimal weight distribution and excellent comfort.

**Light and breathable:** ensures extremely high air circulation, reducing sweating and enabling the thermoregulation.

**Hygienic:** easy to wash with quick drying times.

**Abrasion resistant:** The high-strength texture maintains its performance even at high loads (ISO 12947 test).

**Fire retardant:** according to EN 1021-1:2014 and EN 1021-2:2014 standards.

**OEKO-TEX certificate:** for all fabric that are in direct contact with the skin, to guarantee quality and safety for health.

The new upholstery has a compressive strength (DIN EN ISO 3386) 70% higher than foam.

# Backrest shape

## Shaped and supportive backrest

to accommodate the  
trunk giving appropriate  
support thanks to the  
resistant cover and the  
two inner **aluminum  
lateral bars**

granting maximum  
breathability and  
comfort at the same  
time.
